JOHNS HOPKINS SCIENTIST TO PRESENT LEAGUE OF WOMEN VOTERS WEBINAR

Dr. Eric Toner, Senior Scholar and Scientist at the Center for Health Security at Johns Hopkins University, is the featured speaker at the January 28, 2021 Chaffee County League of Women Voters Zoom Drinks & Dialogue webinar.

In **COVID-19: Where Are We and When Will It End?**, Dr. Toner will discuss the current state of the epidemic nationally and in Colorado; national vaccination efforts and policy; how vaccination will affect daily life in our community; and changes that the new administration might bring to tackling the epidemic

Dr. Toner and the Center for Health Security at the Bloomberg School of Public Health at Johns Hopkins University have been central in formulating guidelines and policy recommendations throughout the COVID-19 epidemic. The statistics that are used by researchers and journalists around the country on the incidence, spread, and mortality of COVID-19 are provided by the Center for Health Security at Johns Hopkins.

For more information and to register for the webinar, go to the Chaffee County League of Women Voters website www.lwvchaffeecounty.org. The Colorado State League is offering the program throughout the state and early registration is encouraged before all slots are filled.

###

The League of Women Voters of Chaffee County is a nonpartisan political organization open to all men and women of voting age, members of all political parties and unaffiliated voters. The League encourages informed and active participation in government; works to increase understanding of major public policy issues; influences public policy through education and advocacy; and holds public meetings to present and discuss local issues. lwvchaffeecounty.org
